Life Is On

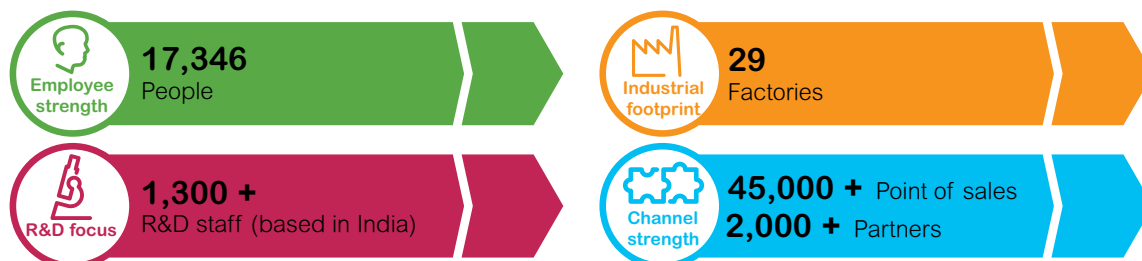

Schneider Electric is the global specialist in energy management and automation. With revenues of €25 billion in FY2014, our 170,000 employees serve customers in over 100 countries, helping them to manage their energy and process in ways that are safe, reliable, efficient and sustainable. From the simplest of switches to complex operational systems, our technology, software and services improve the way our customers manage and automate their operations. Our connected technologies will reshape industries, transform cities and enrich lives.

At Schneider Electric, we call this Life Is On.

Schneider Electric Global footprint

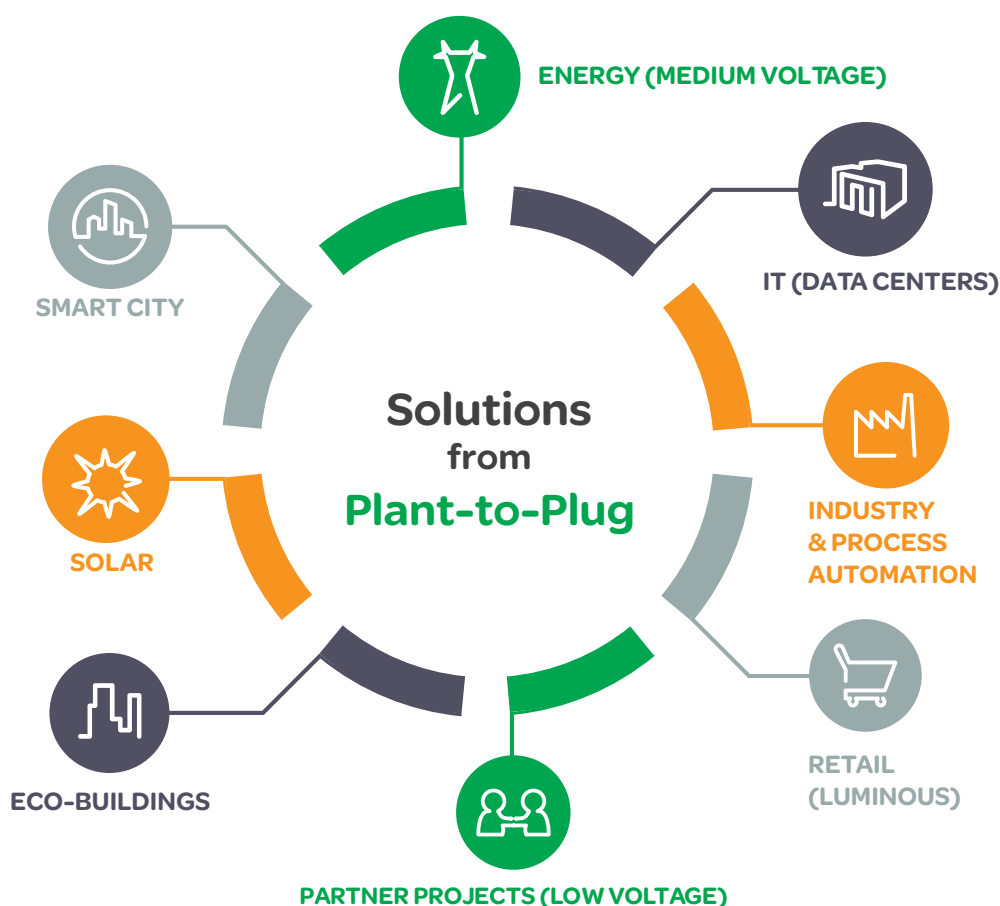

Schneider Electric India footprint

Our business offerings

Span the entire spectrum from Plant-to-Plug.

Smart Power

Energizing your LV installation through smart power infrastructure

We offer complete Smart Power Infrastructure to energize the LV installations in Industrial, commercial and residential buildings. Our digital platforms coupled with innovate, efficient, reliable products and solutions offer energy, asset and network management to our customers.

We offer a wide range of products ranging from Circuit breakers, Contactors, Relays, Meters, Capacitors, Distribution Boards, Modular Switches and solutions in the form of Busway systems, LV panels and complete energy management solutions and life-cycle services

ACBs & MCCBs

TeSys Control and Protection Devices

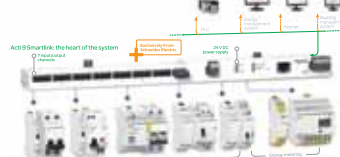

TE- Motor Starters & Contactors

Acti9 Distribution Board

Acti9 Communication System

Electrical Switches

Capacitors, Relay, APFC Panel

Power Monitoring Solutions

Busway Solutions

Blokset & Prisma iPM LV Switchboard

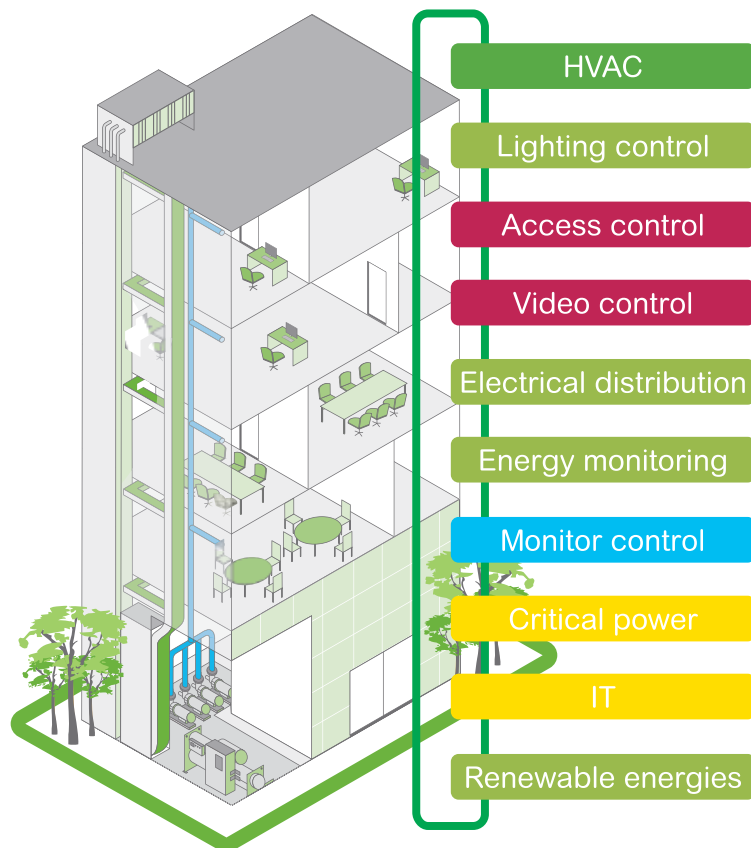

Smart Buildings

Making Your Buildings Efficient, Connected and Smart

Inside every building is the potential to be great, more powerful & more profitable. At Schneider Electric, we design and install building management and automation solutions that unlock this potential in buildings large and small, on every continent, in more than 100 countries. In healthcare, hospitality, education, retail, commercial, government, transportation, life sciences and just about every other industry one can name.

We build more than solutions for HVAC, access control, video security management, lighting control, power management, IT infrastructure and energy optimization. We take an integrated approach to building management that can reduce energy use by 30%, reduce capital expenditures, decrease operating expenditures and improve overall business performance.

Our solutions in a nut shell

Intelligent Building Management System

Lighting Control & Automation

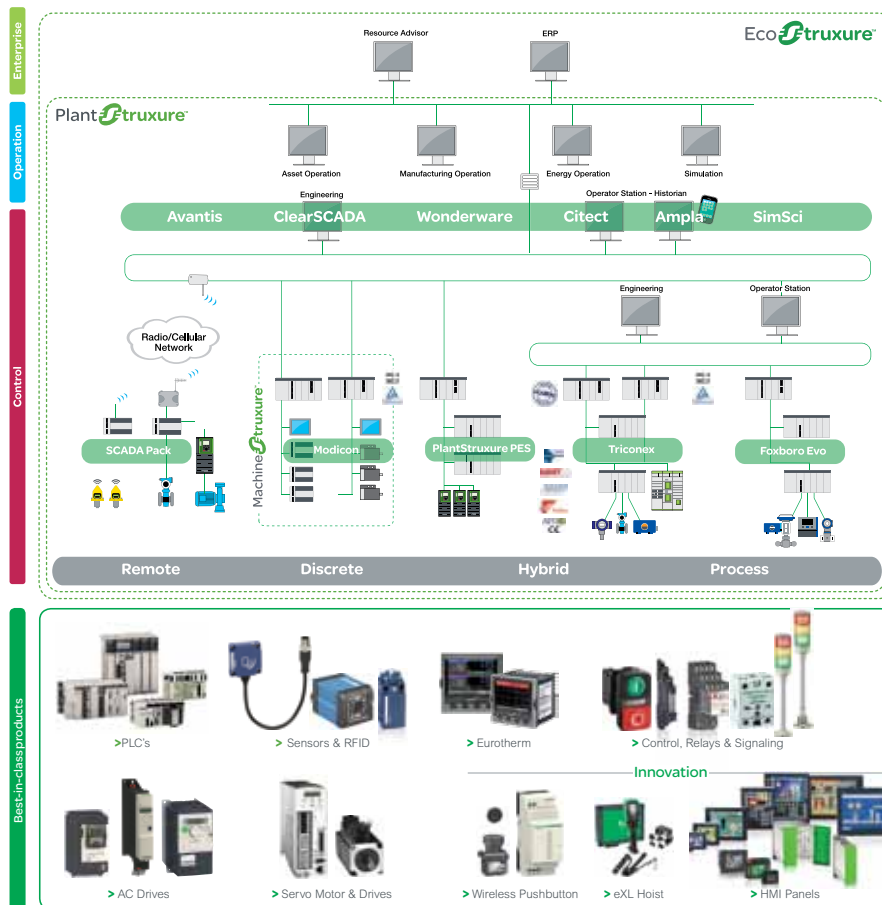

End to End Network Connectivity Solutions

Smart Industry

Automating your plant and machines for the future

The Industrial & process automation offerings comprise futuristic automation solutions with strong focus in OEMs and Mining, Metals, Minerals, Water & Waste Water, Oil & Gas, & Food & Beverage based End Users. We have offers at Machine Level ranging from Drives, Human-Machine Interfaces, Motion Controllers, Sensors, Signalling devices to Machine PLCs. The offers at Process level comprise PAC/DCS solutions with SCADA (Foxboro and Triconex Distributed Control Systems (DCS) and safety systems (ESD)) and at Enterprise level, we have MES/ Historian based solutions. We also have Advanced software solutions such as Training Simulators (OTS), Advanced Process Control (APC), Performance Analysis-Diagnostics-Optimization Solution (PADO) for power plants and other Asset Management tools like Wonderware, SimSci, Aventis.

Smart IT Infrastructure Solutions

When power is critical to your business, make sure it is reliable

Schneider Electric IT Business, a global leader in critical power and cooling services, provides industry leading hardware, software, and services designed to ensure availability and higher energy efficiency across the residential, business network, data center, and manufacturing environments. Backed by the strength, experience, and wide network of Schneider Electric's Critical Power & Cooling Services, Schneider Electric IT Business delivers well planned, flawlessly installed and maintained solutions throughout their life cycle. Through its unparalleled commitment to innovation, the company delivers energy efficient solutions for critical technology and industrial applications.

Schneider Electric Critical Power and Cooling Solutions

Surge | UPS | Power Distribution Units | Racks and Enclosure | Cooling Solutions | 3 Phase UPS | Data Center Infrastructure Management | Data Center and Energy Management Services

Smart Energy

Connecting energy for efficient and sustainable electrical infrastructure

The Smart energy offering comprises of medium voltage products that makes power generation & distribution smart. Smart, safe, reliable & efficient products give a high satisfaction to our customers. Our product portfolio consists of Package Substation, Primary substation Switchgear (Air insulated, Gas Insulated & Solid Shielded), Power Transformer, Distribution Transformer (Oil as well as Dry type), Digital protection relay & metering, Automatic capacitor bank, Ring Main Unit, Remote control & Fault tracking (RTUs & FPIs).

Project Management, Engineering, Audit, Consulting, Installation, Turnkey execution expertise...

1 Energy Modular Power Substations

MV/LV substations: Primary Station compact, walk-in

2 Transformer, Minera & Trihal

3 Pole mounted switchgear Recloser & Switch...

4 Overhead network control units

Easergy T200P

5 Fault Passage indicator

Easergy Flair, Flite

6 MV Switchgear (AIS, GIS, SSIS)

Air Insulated Switchgear (AIS)
- PIX
- PIX 36

Gas Insulated Switchgear (GIS) & RMUs
- GHA
- FBX
- Ringmaster
- Flusarc

Shielded Solid Insulated Switchgear (SSIS)
- Premset

7 Capacitors & Power Factor controller

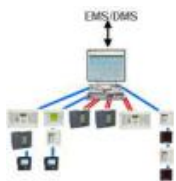

CP229

Varlogic

8 Automation System

SAS & Feeder Automation

9 Protection relays

Sepam, MiCOM P, VIP

A switchgear is composed of components such as circuit breaker, CT's, VT's, CB's, switch, fuses...

Power quality monitoring

ION, PM

RTU, SOE & AVR*

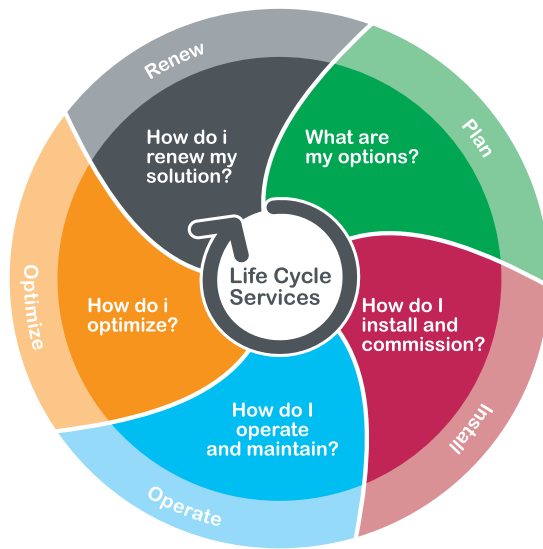

MiCOM C

Field Services

On site to serve you better throughout your installation's lifecycle

When it comes to your electrical distribution installation, we can help you:

- > Increase productivity, reliability, and safety
- > Mitigate risk and limit downtime
- > Keep equipment up to date and extend its lifespan
- > Cut costs and increase savings
- > Improve your return on investment

Comprehensive Installed Base Services from Schneider Electric + Your electrical distribution equipment = Greater productivity, reliability, and safety

Schneider Electric helps you define and implement the best solution evolution, increasing performance and flexibility, while controlling aging infrastructures associated costs

Support

24/7 access to self-service support

Get free, immediate access to continuously updated technical content such as FAQs, product documentation (via search or QR code scan), product registration, services, technical courses...

Contact a local customer support expert

Connect to expertise on demand or request assistance with direct call and new case creation via the app.
